

I hope all is well with you and your family. It's hard to believe we are staring at the holidays that are right around the corner. I wanted to get this one out now so I could wish everyone a Happy Thanksgiving! I hope it will be a time to make memories with your families. My goal for this MAG Corner is to be on the shorter side. I have been gently told by a few of you that my Corners seem to be getting longer and longer. I wanted to be different this time, and hopefully get the next one out before Christmas.

I am excited to tell you about a lot of new things coming down the pike for MAG. The biggest one is that we have purchased ground close to 61st and 145th in Broken Arrow to build a new 6,000 sq ft office. This is only about 5 miles from the current location. I believe everyone will find it very easy to get to. We outgrew this space 5 years ago, and the MAG family has grown to 16 people. The problem was I really liked this space and could not find anything I liked as well. We decided it was time to build exactly what we wanted and needed. This week, we received final permits for the new office. Let me tell you that was a patience building exercise, but we are done and hope to be breaking ground before Jan 2026. The site is on the south side of a pond with great views. The site will eventually be part of the BA park system. I am excited for everyone to see it. The location is The Park at Greenway on Southwest Expressway Drive. Feel free to drive by and take a look anytime. We will have a space big enough to hold educational workshops for you, our clients.

We are also in the process of changing our online presence. The website will be completely redone hopefully in the next 60 days. We are also going to implement some exciting new programs that we will be releasing to you in the next 6 months, and we have ideas we are looking to try. Last, but not least, we received a write up from a financial magazine which highlighted our firm and the strategies we employ. They interviewed me for about 30 minutes and I was very surprised and impressed with how well they understood what we are doing everyday at MAG. You will find a link below that will take you to the article. I would love for you to read it and give me any feedback you'd like to share. We also have copies for anyone who would prefer a physical copy vs the digital version. You, of course, are welcome to share this with anyone. It's a great tool to hand to anyone you have had trouble explaining our strategies to because of how clearly it is expressed.

On a personal note, I try to take one big trip a year for a vacation. I'm trying to start my go go years as soon as possible. This year we went to Portugal, and let me tell you that it is a beautiful country. I have never heard a bad thing about Portugal and for good reason. The cities are clean and beautiful. Their wine country is called the Douro Valley and it's one of the prettiest places I have visited. It is also the birthplace of port wine. A couple of additional interesting facts: They drink more wine per capita than any other country and Portugal's land mass is about half the size of Oklahoma. I was also surprised by how reasonable the prices are there for eating out. If you are looking for a place to travel to, I highly recommend it.

Enjoy the holiday weekend! We are thankful for you.
